Subject: Fair, Simple and Sound

**Dear Commission** 

Having followed this debate for some years now, I am all in for Mr. Butlers proposal (http://news.silverseek.com/SilverSeek/1284471998.php)

I find it amazing that the present limit for silver is, where it is. The incorrectness of this is alarming and can only make one think, that its allowed for manipulative reasons.

Please change present rules and make the markets a better place.

Best regards

Jan Gindrup
